Sustainability and Science Schools Showcase

Showcase highlights

- ★ Guest speakers Prof Julie Davis (QUT), Dr Judy Friedlander (Planting Seeds), and Michelle Neil (ACSA) presented about sustainability and citizen science in schools
- ★ Students from Bundaberg Christian College, Kalkie State School, Pallara State School, Ripley Valley State Secondary College, Worongary State School, and Yarrabilba State Secondary College presented about their sustainability and citizen science projects and took part in a Q&A panel
- ★ Eight experts met the schools and helped them improve their sustainability and citizen science outcomes
- ★ Schools took part in two hands-on activities: learning to take identification photos for citizen science and making homes for native blue-banded bees
- ★ Students created sustainability scrapbooks of ideas and action to take back to their schools after the event

Sustainability and Science Schools Showcase

Sustainability pledges

65
pledges

My pledge is...
to live more
consciously
regarding my
waste output.

My pledge is...
to be sustainable
and care for all
wildlife.
Be the best
person I can be.

My pledge is...
to learn more
about a healthier
world.

My pledge is...
to help reduce
hunger.

My pledge is...
to make my school
healthier and
greener.

Sustainability and Science Schools Showcase

Showcase feedback

My students had a wonderful time and they mostly appreciated that what they do in the sustainability space has value and that people appreciate what they do.

Congratulations on a fantastic Showcase.

May I congratulate you, your crew and your presenters and facilitators for yesterday's showcase. It was superbly presented and run.

Our students really enjoyed the day and have come back brimming with ideas.

I want to thank you so much for allowing our school to experience this event and the learning we gained from this. Being a single classroom of 8 year levels (K-6) means little time to identify such opportunities as shared as this event.

Thank you to our key partners:

Department of Education, State Library of Queensland, Queensland Museum Network, Queensland Herbarium, and Apple

Sustainability and Science Schools Showcase

35
participating
schools

Schools at showcase:

- Bundaberg Christian College
- Chevallum State School
- Coppabella State School
- Deception Bay State High School
- Elanora State High School
- Goodna Special School
- Goombungee State School
